The screenshot shows the Package Manager Console window. At the top, there is a blue header bar with the text "Package Manager Console". Below the header, there are two dropdown menus: "Package source:" with "All" selected, and "Default project:" with "NavalWar.DAL" selected. To the right of these dropdowns are icons for settings, a list, and a close button. The main area of the console is light gray and contains the following text:

```
PM> Add-migration init
